

# A GUTTER GUARD THAT ACTUALLY WORKS!

Evelyn Robins, founder of Evelyn's Leaf Solution, has been a fixture in the gutter protection industry for thirty years running. In that time, Evelyn's commitment to product innovation, quality, and customer satisfaction has led her to become the most trusted voice in the business.

Our state-of-the-art engineering program has resulted in technologies that have, time and again, redefined the industry. For instance, back in 2002, while our competitors were busy selling faulty, inferior protection, Evelyn's Leaf Solution was developing and perfecting the art of stainless steel micro-mesh.

While our competitors are content to settle on 'good enough,' we at Evelyn's Leaf Solution are dedicated to bringing our customers the best products available.

## For Example

Our products are Sourced, Serviced, and  
Manufactured in America

Every linear foot of gutter guard is subjected  
to the most rigorous quality control and  
testing standards in the industry

Our installers are trained, certified  
professionals.

**At Evelyn's Leaf Solution, we take your satisfaction seriously. That's why our product is backed by a 100% money-back, "GUTTERS WILL NEVER CLOG" guarantee!**

THE DIFFERENCE IS IN THE DESIGN

US PATENT #8,375,644

**CLOG FREE GUTTERS  
ARE YOUR HOME'S BEST  
DEFENSE AGAINST  
WATER DAMAGE.**

## PATENTED CAPILLARY DIPS

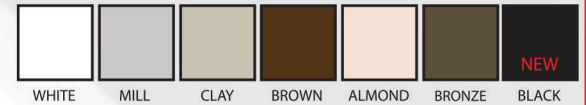

Evelyn's patented capillary diverter system is engineered to capture all rainwater. The triple dip design alters the flow of the water, forcing it into the gutter. Our mesh is integrated with the substrate throughout the entire active area (horizontally and vertically), creating capillary action and maximizing water dissipation.

## SLOPED INSTALL

Evelyn's Leaf Solution is installed at an angle to optimize shedding. This method virtually guarantees that even the smallest debris will self-shed and not accumulate on top of the system.

## AVAILABLE IN 7 COLORS

## STAINLESS STEEL MESH

Through years of testing and product development, we have perfected the design of our stainless steel mesh. Our custom engineered, 440 micron gauge screens feature holes large enough to optimize water flow, while remaining small enough to catch shingle grit.

## PATENTED HEMMING PROCESS

Our patented, micro-mesh hemming process makes Evelyn's Leaf Solution the strongest, most durable gutter guard ever manufactured.
